VISIVAULT ANALYTICS

90-day pilot plan

Repair job profitability, technician productivity, repair cycle time and branch financial performance

⚠ **Developed by VisiVault Analytics Ltd. — Synthetic demonstration data. Not actual Ultimate Car Care Group records.**

Developed by VisiVault Analytics Ltd. · October 2026 · Pilot plan

Prairie Auto Care Group is a FICTIONAL multi-location Calgary collision repair and car care business. Its business model (three Calgary locations with distinct roles, published hours, service menu, OEM-certified collision work, direct billing of insurers) is inspired by a public Calgary auto care group's website (retrieved 2026-10-09); every repair order, cost, technician, insurer, customer and financial figure is synthetic. No relationship with or endorsement by any real company is implied.

Plan

When	Phase	Deliverables
Weeks 1-2	Diagnostic	Data-access review; export mapping from the shop-management, estimating and accounting systems; data-quality report; KPI definitions agreed
Weeks 3-6	Build	Job profitability and technician productivity views on real data; cycle-time stage timestamps; branch P&L with agreed transfer pricing and allocations
Weeks 7-10	Validate	Reconcile to the general ledger and payroll; review with branch managers and estimators; refine fairness adjustments for technician metrics
Weeks 11-13	Embed	Monthly management pack, weekly cycle-time / parts-delay list, 12-month forecast with scenarios; handover and next-phase plan

Week by week

Week	Milestone
1	Kickoff; data-access and export mapping
2	Data-quality report; KPI definitions signed off
3-4	Job costing per RO reconciled to invoices
5-6	Technician productivity and capacity views; fairness adjustments
7-8	Cycle-time stages, WIP and delayed-repair list
9-10	Branch P&L, transfer pricing and allocations reconciled to the GL
11-12	12-month forecast and scenarios on real history
13	Management pack #2, handover, next-phase plan

Roles

Activity	Responsible (client)	Supported by
Data exports	Group IT / office manager	VisiVault
KPI definitions (labour hours, promise dates, cycle-time stages)	Group management	VisiVault
Dashboards, models, reconciliations	VisiVault	Controller / management
Branch review sessions	Branch managers & estimators	VisiVault
Monthly review	Owners / management	VisiVault

Demonstration dashboard: **prairie-auto-care-bi.streamlit.app** (fictional business, synthetic data).

Exit criteria

- Reconciliations at zero difference; two monthly packs delivered; branch managers using the weekly delay list; go / no-go on ongoing support.
